

- NOTE : 1 . If no note, all resistors used 1/8w.
 2 . R9, R13, R14, R16, R106, R111, R113, R116, R117. These resistors used +-1% , other resistors used +-5%.

Modification Rev.2

- R110=68K
- R101=1K
- R16=27.4K
- R202=1K With Diode 1N4148 in series
- R201=511R
- R102=not assembled
- SW101=normally closed contact in series with 100R from ground to pin2 of IC5
- SW101=the printed circuit board track must cut through (see at the EA sample)
